

Palm Dashboard (Updated January 2025)

Specialty Fats

Our specialty fats business has been a member of RSPO since 2006 and supply chain certified since 2011. 100% of its palm oil is physically RSPO certified with the vast majority of procurement coming from Identity Preserved mills, ensuring the highest global environmental and social standards are met.

Palm Oil Supply Chains

Dairy

Our dairy operation in Malaysia uses palm oil in the manufacture of fat-filled milk powder. As well as supplying clean, hygienic, wholesome and fully-traceable milk, we are switching to RSPO certified palm oil in the production of these milk powders and aim to achieve 100% certified palm oil by 2025.

[Timebound Action Plan](#)

100%

Sourcing of RSPO certified products ACOP 2023 target met by Specialty Fats ✓

100%

CSPO uptake achieved and maintained since 2019 ✓

100%

CSPKO uptake achieved and maintained since 2017 ✓

[Timebound Action Plan](#)

2021

Initial RSPO certification achieved ✓

2024

60% certified palm oil ✓

2025

100% certified palm oil
